“GENDER IDENTIFICATION, ROLES AND CONCEPTS IN GROUP ANALYSIS”

Saint Petersburg, Russia 5-7th June 2020

Congress Hall "Vasilievsky", Smolenka River, 2.

(In the Building of the St.Petersburg Art Museum)

At the heart of the conference is the exploration of the conscious and unconscious expressions of gender identification at the individual, group and social level. Together we will study how the differences in gender identity and roles are connected to cultural, historical, family and other factors. By bringing together different cultures in a group analytic environment we aim to foster a new perception of the Masculine and the Feminine in the modern world.

The program will include oral presentations, panels, large group, median groups and a Social Dream Matrix.

The conference will be held in St. Petersburg, one of the most impressive and beautiful cities in the world, and a cultural center with a vast tradition and fascinating history.

We will be meeting in June, during the White Nights season, when the sun never sets, and the city is alive 24 hours a day. We will experience the city's festivals, activities, concerts, museums, restaurants and shops via tours organized by the conference staff.

This event is an opportunity to meet with colleagues from various countries and discuss group analysis and other matters.

The languages of the conference will be **English and Russian**.

Co-management of the conference :

Svetlana Bugrova (OGRA), Anna Tsapenko (MIGA), Ella Stolper (IIGA)
